THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04.) If a reply to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments. Applicant proposes filing an RCE and including a declaration showing commercial success of the claimed product. Applicant argues that there is no motivation to combine the references. Applicant argues that the thickener is added to the present composition to reduce the amount of VOCs that are released into the environment. The examiner indicated that the alleged commercial success and arguments regarding motivation would be considered in the event applicant filed a RCE.

## Summary of Record of Interview Requirements

### Manual of Patent Examining Procedure (MPEP) Section 1204 Substance of Interview Must be Made of Record

Each complete or partial statement of the substance of the interview must be made of record in the application file. The substance of the interview must be made of record in the application file either in a statement of the substance of the interview or in a summary of the interview.

### Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews

(b) (2) (i) (A) (1)

Each interview must be made of record in the application file. The substance of the interview must be made of record in the application file either in a statement of the substance of the interview or in a summary of the interview. The substance of the interview must be made of record in the application file either in a statement of the substance of the interview or in a summary of the interview.

### 37 CFR 1.133(b)(2)(i)(A)(1) Interviews

Each interview must be made of record in the application file. The substance of the interview must be made of record in the application file either in a statement of the substance of the interview or in a summary of the interview. The substance of the interview must be made of record in the application file either in a statement of the substance of the interview or in a summary of the interview.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an interview summary form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 12.01 of the Manual of Patent Examining Procedure or pointing out typographical errors or unreadable script in the actions of the file are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiner's separate Interview Summary Record is required.

The interview summary form shall be given an appropriate Paper No. placed in the right hand portion of the file, and listed on the Contents section of the file wrapper. In the case of a telephone or video conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication to that address. If the copy is not mailed before an allowance or if other circumstances dictate, the form should be mailed promptly after the interview, rather than with the next official communication.

The form provides for the following information:

Application Number, Series Number, and Serial Number

Name of applicant

Name of examiner

Date of interview

Type of interview (telephonic, video conference, or personal)

Name of participant(s) (applicant, attorney, or agent, examiner, other PTO personnel, etc.)

An indication whether or not an exhibit was shown or a demonstration conducted

An identification of the specific principal discussed

An indication whether an agreement was reached and, if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.

The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner challenge the applicant's (his or her) obligation to record the substance of the interview of each case unless both applicant and examiner agree that the examiner will record same. Where the examiner agrees to record the substance of the interview, or when it is adequately recorded in the Form and an attachment to the Form, the examiner should check the appropriate box at the bottom of the Form which informs the applicant that the substance of a separate record of the substance of the interview as a supplement to the Form is not required.

It should be noted that the obligation to record the substance of the interview is not a complete and proper recordation of the interview process. The obligation to record the substance of the interview is not a complete and proper recordation of the interview process.
